Subject: No Pollution Illinois

John Therriault and Illinois Leaders,

Thank you for viewing this letter.

Ameren's request (PCB 12-126) to transfer to Dynegy its variance from Illinois air quality standards is not acceptable. The fact that Dynegy and Ameren are asking that this transfer proceed without a public hearing is unlawful and disrespectful to the community, our children and our land. Also, both Ameren and Dynegy have stated that, if forced to comply with pollution controls, they would suffer undue financial struggle. That is an obvious reason to concentrate on state clean air standards and renewable solutions. As the Illinois Pollution Control Board, Illinois Environmental Protection Agency, and local stewards of life, let us move forward and improve.

Healthy wishes,

Jacob Leibel
Peoria County Resident
