To: Therriault, John
Subject: "PCB-R15-23 - Amendments to Primary Drinking Water Standards, 35 IAC 611"

- 1) Provide the number of households or individuals served by the community water suppliers that add fluoride; **The number of service connections in the City of Elgin is 32,303. Of that, approx. 31,000 are residential properties.**
- 2) Provide the basis upon which the calculations of savings were made; **The amount of savings that the city of Elgin could potentially see would be approx. \$11,000 (annual savings) out of a \$2M annual water treatment chemical budget (not significant)**
- 3) Address whether, and if so, why, the prospect of community water suppliers not realizing the estimated cost savings for a 5 month period reasonably constitutes a threat to the public interest, safety or welfare; **I do not believe that constitutes a threat in any way.**
- 4) Provide specific hardships or detrimental effects to community water suppliers that are more likely than not to result if an emergency rule is not granted; and

Kyla Jacobsen

Utilities Director
