

ILLINOIS POLLUTION CONTROL BOARD
April 27, 1984

IN THE MATTER OF:

PUBLIC INFORMATION, RULEMAKING)
AND ORGANIZATION (2 Ill. Adm.) R83-27
Code 2175))

Adopted Rule. Final Order.

OPINION AND ORDER OF THE BOARD (by J. D. Dumelle):

Pursuant to Section 4.01(a) of the Administrative Procedure Act [Ill. Rev. Stat. c. 127, par. 1004.01(a)], the Board is required to maintain the following:

1. a current description of agency's organization with necessary charts depicting same;
2. the current procedures on how the public can obtain information or make submissions or requests on subjects, programs, and activities of the agency;
3. table of contents, indices, reference tables, and other materials to aid users in finding and using the agency's collection of rules currently in force; and
4. a current description of the agency's rulemaking procedures.

These rules become effective upon filing and need not be the subject of hearings, notice, or public comment. The intent of this requirement appears to be to have one place in the Ill. Adm. Code that contains overviews of the various rulemaking bodies which can be used by the uninitiated to gain an understanding of what those bodies do, how they do it, and how further information may be obtained.

The rules which the Board adopts today were written to fulfill that intent. They are, essentially, a simplified version of the mandates of the Environmental Protection Act (Ill. Rev. Stat. c. 111 $\frac{1}{2}$, par. 1001 et seq.; the Act) and the Board's procedural rules. Since they are simplified, they are not as precise as the Act or the procedural rules, and where there is a conflict between these rules and the Act or the procedural rules, the Act and the procedural rules are controlling.

ORDER

<u>SUBTITLE</u>	<u>SUBJECT MATTER</u>
A	Procedural Rules
B	Air Rules
C	Water Rules
D	Mine Rules
E	Livestock Waste
F	Public Water Supplies
G	Waste Disposal
H	Noise Rules
I	Nuclear Radiation

- b) The Subtitles listed in Subsection (a), above, also include rules of the Environmental Protection Agency and the Department of Energy and Natural Resources. The Board's rules appear at Chapter I of each of the Subtitles.

SUBPART D: RULEMAKING

Section 2175.310 Proposals

- a) Rulemaking procedures are set out in 35 Ill. Adm. Code 102.
- b) Proposals for the adoption, amendment or repeal of a substantive regulation may be made by the Environmental Protection Agency, the Department of Energy and Natural Resources (Department), the Board or any member of the public. Proposals made by the Agency, Department or Board are automatically scheduled for hearings.
- c) In the case of a proposal made by a member of the public, the proposal must be accompanied by a petition signed by 200 persons, specifying home addresses, unless that requirement is waived by the Board. When the proposal is accompanied by a petition, the matter is placed on the agenda for Board decision. Generally, the Board will authorize a hearing unless it determines that the proposal is plainly devoid of merit, or deals with a subject on which a hearing has been held within

the preceding six months, or is not accompanied by an adequate statement of supporting reasons. The proponent will be notified of an adverse decision and of the reasons for such a decision.

Section 2157.320 Initial Hearing

- a) All hearings on regulatory proposals are conducted according to 35 Ill. Adm. Code 102. These hearings are open to the public, and at such hearings, the public is permitted to examine the record, examine witnesses (except as limited by the Hearing Officer), testify and submit evidence.
- b) Unless otherwise directed by the Hearing Officer or the Board, the record remains open for public comment for a minimum of 14 days following the close of the hearing. Any person may make a written submission on the proposal within this period or during the first notice period pursuant to Section 5.01 of the Administrative Procedure Act (Ill. Rev. Stat. 1981, ch. 127, par. 1000 et seq.; hereinafter the APA).

Section 2175.330 Hearings on Economic Impact Study

Before the final adoption of any proposed regulation or amendment to existing regulations, the Board must conduct hearings on the Economic Impact Study of such proposals unless the rulemaking is exempted from that requirement pursuant to Ill. Rev. Stat., 1983, ch. 96½, para. 7404(d), or by special provision in the Act.

Section 2175.340 First Notice

- a) The Board may adopt a proposed rule for first notice pursuant to Section 5.01 of the APA at any time after a regulatory proceeding is initiated. Normally the Board will not proceed to first notice until merit and economic hearings have concluded and comments have been received unless there is a need to proceed quickly.
- b) The public has a right to comment on the proposed rules during the first notice period and retains all other rights set out in Section 5.01 of the APA.
- c) Pursuant to the Section 28 of the Act, the Board may, in general, revise the proposed regulation before adoption without conducting further hearings, except that if the proposed change significantly alters the intent and purpose of the proposal, an additional economic impact study must be prepared pursuant to Section 27(b) of the Act.

Section 2175.350 Second Notice

- a) Upon termination of the first notice period, the Board may adopt the proposal for second notice pursuant to Section 5.01(b) of the APA, for review by the Joint Committee on Administrative Rules (JCAR).
- b) After the second notice period has commenced, the proposed rules may only be amended in response to JCAR recommendations.

Section 2175.360 Adopted Rules

- a) At the conclusion of the second notice period the Board may adopt a final opinion and order adopting the new rules and setting forth the reasons for adoption.
- b) The adopted rules are then filed with the Secretary of State and are published in the Illinois Register along with supporting information.

Section 2175.370 Emergency Rules

On proclamation by the Governor, pursuant to Section 8 of the Illinois Emergency Services and Disaster Act at 1975 (Ill. Rev. Stat. 1981, ch. 127, par. 1108), that a disaster emergency exists, or when the Board finds that a severe public health emergency is involved in relation to any proposed regulation, then such regulation shall take effect without delay and the Board may proceed with the required economic impact hearings while the regulation continues in effect. When such an emergency exists the customary 45 day notice provision is waived; however, notice and text of the emergency rule must be published in the Illinois Register. An emergency rule is effective for a maximum period of 150 days pursuant to Section 5.02 of the APA, but it may be adopted as a permanent rule by following usual rulemaking procedures.

Section 2175.380 Peremptory Rules

- a) When the Board is required by federal law, federal rules and regulations or by a court order to adopt a certain rule, that rule need not be published in the Illinois Register until it has been adopted pursuant to Section 5.03 of the APA. However, notice and text of the adopted rule must be published in the Illinois Register pursuant to Section 6.01 of the APA.

- b) An exception to the general rulemaking procedure exists in the case of federal regulations promulgated under Sections 111 and 112 of the Clean Air Act (42 U.S.C. 7401 et seq.) pursuant to Section 9.1(c) of the Act and Section 5.03 of the APA. Following the promulgation of a regulation by the Administrator of the United States Environmental Protection Agency relating to either standards of performance for new stationary sources (Section 111) or the establishment of national emissions standards for hazardous air pollutants (Section 112), the Board shall adopt State regulations in substance identical to the federal regulations at the next scheduled Board meeting. The 45 day notice provision and the customary hearings are waived in this instance, but the rule must be filed with the Secretary of State within 60 days of the Board's adoption.
