**QUARTERLY STATUS UPDATE**

NOW COME, AmerenEnergy Medina Valley Cogen, LLC (“Medina Valley”), and Illinois Power Resources, LLC (“IPR”), together by and through their attorneys, Schiff Hardin LLP, and pursuant to 35 Ill. Adm. Code 102.400 and 101.Subpart C. On July 25, 2013, the Illinois Pollution Control Board (“Board”) granted a request for a stay of this site-specific rulemaking during the development and pendency of a separate rulemaking proposal to be filed by the Illinois Environmental Protection Agency (“IEPA”). In that order, the Board directed the proponent to file quarterly status reports during the one-year term of the stay, describing the continued need for stay.

On October 28, 2013 IEPA filed a proposal for a generally-applicable rule regarding groundwater monitoring, corrective action, and the closure of coal combustion waste surface impoundments at power generating facilities. *In the Matter of Coal Combustion Waste (CCW) Ash Ponds and Surface Impoundments at Power Generating Facilities: Proposed New 35 Ill. Adm. Code 841*, R14-10. In December, 2013, IPR and Medina Valley acquired ownership of, or indirect ownership interests in, the facilities that are the subject of this site-specific rulemaking. Both IPR and Medina Valley continue to review the filings, testimony and developments in docket R14-10 and respectfully request that the Board continue to maintain the stay of this docket until such time as more certainty develops with respect to the general rule.

Respectfully submitted,

Illinois Power Resources, LLC and AmerenEnergy  
Medina Valley Cogen, LLC,
