IN THE MATTER OF:)

JOINT PETITION OF THE BLOOMINGTON)
AND NORMAL SANITARY DISTRICT AND) PCB 84-40
THE ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY FOR EXCEPTION)
TO THE COMBINED SEWER OVERFLOW)
REGULATIONS.)

SUPPLEMENTAL STATEMENT (by J. D. Dumelle):

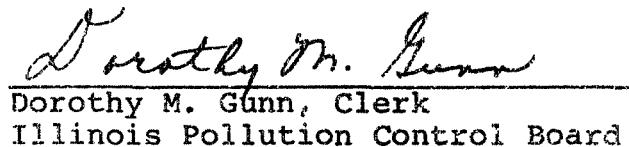

While I approve the decision in this matter I have some concerns about ordering the paving of two open ditches in order to eliminate low spots and subsequent sludge deposits.

The sludge now deposited in these ditches must deposit somewhere. It seems to me that the Main Branch of Sugar Creek may now begin to experience these sludge deposits. The 3-year monitoring program required in the Order should especially look for new sludge deposits in Sugar Creek.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board hereby certify that the above Supplemental Statement was filed on the 2nd day of July, 1984.
