 Respondent.)

ORDER OF THE BOARD (by B. Forcade):

On May 31, 1984 the Village of Odin filed a Petition for Variance from existing Board regulations for water pollution as applied to the petitioner's sewage treatment plant. This petition is deficient in that it fails to provide information on the following, as required by 35 Ill. Adm. Code 104.121:

1. A statement identifying the specific Board regulations from which variance is sought and the time period, in calendar dates, for which this relief is requested.
2. A statement describing petitioner's sewage treatment system that includes information as to capacity, design, size of the system, location, and nature of material treated.
3. Any available information or data about the nature of the untreated material that will be stored in the temporary lagoon during cleaning operations, the location of the temporary lagoon and identification of the receiving waters if discharge from the lagoon occurs.
4. Any available estimates of the potential environmental impact that a discharge from the storage lagoons will impose on human, plant, and animal life in the affected area. Factual supporting information should be included to the extent available.
5. Any available information about the disposition or treatment of the lagoon - stored material and the petitioner's plans for restoration of the temporary lagoon site after cleaning and maintenance has been completed.

- 6. Any available information about the petitioner's plans to minimize the environmental impact of a possible discharge from the storage lagoon.
- 7. An affidavit by the petitioner that must accompany a waiver of hearing as required by 35 Ill. Adm. Code 104.124.

Unless an amended petition is filed within 45 days curing the above noted defects, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board hereby certify that the above Order was adopted on the 14th day of June, 1984 by a vote of 6-0.

Dorothy M. Gunn
 Dorothy M. Gunn, Clerk
 Illinois Pollution Control Board
