Proposal to Revoke Tax Certification.

ORDER OF THE BOARD (by J.D. Dumelle):

Recently enacted Public Act (P.A.) 83-0883, which became effective on September 9, 1983, amends the definition of "Pollution Control Facility" as contained in Section 21a-2 of the Illinois Revenue Act of 1939 (Ill. Rev. Stat. Ch. 120, par. 502a-2) in the following manner:

"For purposes of assessments made after January 1, 1983, "pollution control facilities" shall not include, however, a) any system, method, construction, device or appliance appurtenant thereto, designed, constructed, installed or operated for the primary purpose of (i) eliminating, containing, preventing or reducing radioactive contaminants or energy, or (ii) treating wastewater produced by the nuclear generation of electric power; b) any large diameter pipes or piping systems used to remove and disperse heat from water involved in the nuclear generation of electric power; or c) any equipment, construction, device or appliance appurtenant thereto, operated by any person other than a unit of government, whether within or outside of the territorial boundaries of a unit of local government, for sewage disposal or treatment.

The Pollution Control Board shall revoke any prior certification in conflict with this amendatory act of 1983 before January 1, 1984."

Pursuant to this statutory directive, the Board has reviewed Pollution Control Facility Certifications and Applications for

Certification which were referred to the Board by the Illinois Environmental Protection Agency for decertification under this language. On the basis of this information, the Board finds that the facility which is the subject of this certification falls within subparagraph (a)(i) and/or (b) of paragraph 502a-2 of the Illinois Revenue Act of 1939, as amended. (The information on which this belief is based is attached to this Order.)
