Recommendation of Tax Certification

Log # TC-08-13

Property Identification # 02-07-100-006

The Bureau of Water received a request on June 4, 2012 from GRAINCO FS, Inc. for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 II. Adm. Code 125.204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

GRAINCO FS, Inc.

Attn: Bill-Stahler
3107 North Highway 23
Ottawa: Illinois 61350

Attn: Bill-Stahler

Inorns

Section 7, Township 34N, Range 7 East of the 3rd P.M in Grundy County

Agrichemical containment structures consisting of one single concrete agrichemical fertilizer operational containment structure, one concrete agrichemical secondary containment structure, and associated collection and recovery systems as approved under the Agency endorsed Agrichemical Facility Permit No. 91070669 (Log. No. 11060376). These facilities collect, transport and store agrichemical residues prior to reuse or disposal.

These facilities are further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125,200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact Jamie Cowles at 217/782-3362.

Date Received:

June 28, 2011

Expiration Date:

September 9, 2016

Permit is hereby granted to the above designated permittee to construct and operate an agrichemical containment facility as follows:

OPERATIONAL CONTAINMENT STRUCTURE

Operation of an existing reinforced concrete operational containment structure with the greatest dimensions measuring 38' (width) x 39.5' (length) x 1.17' (depth) with a total design capacity of 750.8 cubic feet (ft.3). The floor shall slope to a series of four (4) sumps (two (2) sumps for the separation of solids and two (2) sumps for the recovery of liquids), each sump measuring 1.5' (width) x 1.5' (length) x 2.83' (depth) to facilitate the collection and recovery of all escaped product and/or agrichemical wastewater. All recovered effluent shall be transferred to one (1) of two (2) 500 gallon recovery tanks with a manually activated sump pump. Segregation shall be performed based upon the applicable target crop and label use. All loading, unloading and washing of bulk liquid agrichemical transportation and application equipment shall be performed upon the herein permitted structure.

SECONDARY CONTAINMENT STRUCTURE

Operation of an existing reinforced concrete secondary containment structure measuring 32.58' (width) x 32.58' (length) x 3.75' (height) with a total design capacity of 3,747.5 cubic feet (ft.³). The floor shall slope to a single sump measuring 1.5' (diameter) x 0.75' (depth) to facilitate the collection and recovery of all escaped product and/or agrichemical wastewater. All recovered effluent shall be transferred to one (1) of the two (2) aforementioned 500 gallon recovery tanks with a manually activated sump pump. Segregation shall be performed based upon the applicable target crop and label use. All bulk liquid fertilizer shall be stored within the herein permitted structure.

There shall be no discharge of wastewater from the herein permitted facilities.

This permit has been reviewed and approved by the Illinois Environmental Protection Agency per the attached permit endorsement. This permit is subject to standard conditions on the reverse side of this document and the following special conditions:

SPECIAL CONDITION 1: The permittee shall provide backflow protection in accordance with the Illinois Department of Public Health Plumbing Code (77 Ill. Adm. Code 890) and the Illinois Environmental Protection Agency's Technical Policy Statement (35 Ill. Adm. Code 653.803(c)(4).

SPECIAL CONDITION 2: The permittee may discharge accumulated precipitation from the herein permitted operational and secondary containment structures pursuant to 8 Illinois Administrative Code 255.110 (a) (2) (A) and (B)

) Water)

RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board, 35 Ill. Adm. Code 125.204.

- On June 4, 2013, the Illinois EPA received a request from GRAINCO FS, Inc. (log number TC-08-13, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.
- 2. The applicant's address is: GRAINCO FS, Inc. 10570 N. Lisbon Rd Morris, Illinois 60450
- 3. The proposed water pollution control facilities in this request are located at Section 7, T34N, R7E of the 3rd PM in Grundy County, at the above street address and consist of the following:

Agrichemical containment structures consisting of one single concrete agrichemical fertilizer operational containment structure, one concrete agrichemical secondary containment structure, and associated collection and recovery systems as approved under Agency endorsed Agrichemical Facility Permit No. 91070669 (Log. No. 11060376).

These pollution control facilities have the primary purpose of collecting, transporting, and storing agricultural residues prior to reuse or disposal, and are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2012), defines "pollution control facilities" as:

"any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution

THIS FILING IS SUBMITTED ON RECYCLED PAPER

...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property."

- 5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
- 6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the
