ORDER OF THE BOARD (by B. Forcade):

On September 26, 1986, the City of Elmhurst filed a Petition for Variance seeking relief from Standards of Issuance for new permits and from Restricted Status as they pertain to limitations on combined Radium 226 and 228. That Petition is deficient in that it fails to provide:

Sufficient information of the pumping rates on the wells, blending capacities, and distribution system to allow the Board to determine whether blending could be used to reduce the contamination levels, and additional information on past levels of radium sampling and analysis or a statement that no additional data exists.

Unless an Amended Petition is filed within 45 days of the date of this Order, curing the above-noted defects, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 9th day of October, 1986 by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
