**ILLINOIS ENVIRONMENTAL PROTECTION AGENCY’S POST-HEARING
COMMENT**

NOW COMES the ILLINOIS ENVIRONMENTAL PROTECTION AGENCY, (“Illinois EPA” or “Agency”) by and through its counsel, and hereby submits its post-hearing comment for the hearing held in the above-captioned matter on May 16, 2018.

During the hearing, the Board asked the Agency whether site-specific water quality standards are reviewed during Illinois EPA’s triennial review process? If not, what would prompt a review? The Illinois EPA may review site-specific water quality standards during its triennial review process required by Section 303(c)(1) of the Clean Water Act and the United States Environmental Protection Agency’s implementing regulations at 40 CFR 131.20 (states must, from time to time, but at least once every 3 years, hold public hearings for the purpose of reviewing applicable water quality standards adopted pursuant to 40 CFR §131.10 through 131.15 and, as appropriate, modifying and adopting standards).

Wherefore, the Illinois EPA respectfully submits its responses to the Board’s question posed at the May 16, 2018, hearing.

Respectfully submitted,

Dated: May 23, 2018
