Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

PC#3020

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Sarah Wolfe
3802 Greenwood Ln
Saint Charles, IL 60175-5652

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

These companies say they don't have enough money to pay for technology that would prevent illness, inability to breathe and deaths? They should be put out of business then.

I have asthma. I gave testimony to the EPA recently about the sobering statistics of other people like me, particularly children, who are hospitalized from respiratory conditions in greater numbers than anywhere in the nation - because of polluters like this.

Last summer, because of the ozone levels and high temperatures, I had difficulty breathing much of the time. I am getting very close to moving out of this state, the way our appointed and elected officials keep regarding voters as expendable, that they can toy with and get money from. I consider what these polluting companies do to be an ASSAULT, no different than being assaulted on the street, by strangers.

Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards.

To the Illinois Pollution "Control" Board: SHAME ON YOU for allowing variances up until this point. You should remove the word "control" from your name. And, all of you should resign. You are exactly the reason no one trusts elected or appointed officials anymore. How do you live with yourself knowing you're directly responsible for death and illness of people you live among?

Sincerely,

Laura Sabransky

IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Cynthia Okayama Dopke
4340 N Marmora Ave
Chicago, IL 60634-1739

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Diego Rael

Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Robert Fleming
10604 Ridge Dr

IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Bonnie Hernandez
9751 Kedvale Ave

Please don't let Dynegey now violate that trust, by giving them permission to pollute our air.

How much money did the LAWS on the books cost us? WHY are you even considering ignoring them because a BUSINESS doesn't want to comply?

They need to follow the laws too. If they can't, they should be severely fined, in amounts that make them aware we are watching them.

Sincerely,

Rachel Wickart

Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

Jun 5, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Stephen Matic

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

Please protect the health of Illinois citizens and of our communities.

Since Dynegy wants to purchase five coal plants in Illinois, this company should be expected to abide by our state's air quality standards. Coal pollution harms the health of everyone, particularly children with asthma and all who develop respiratory and heart ailments. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected air quality to improve. Please don't let Dynegy now violate that trust. Deny them permission to exceed Illinois air pollution limits. Require that they meet air pollution laws now, not five years from now.

Sincerely,

Susan Lannin
