Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

Jun 6, 2013

Illinois Pollution Control Board
IL

PC# 3030

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Alan H. Sindelar

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

If Dynegy doesn't have the financial means to comply with the law, they should not be allowed to do business.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. Mercury is one of the by-products of burning coal. It is a known neurotoxin that, as a result of burning coal, is getting into our food supply. As a registered voter, I am sick and tired of local taxpayers getting the shaft from corporate polluters who repeatedly violate environmental laws and compromise our health in order to save money and increase their corporate profit! I'm also sick of politicians who go along with this!!! Taxpayers have repeatedly had to pick up the tab for toxic waste cleanup caused by irresponsible and greedy corporations who would seek to privatize their profits while passing on the cost, of cleaning up their mess, to the general public!

Clean air, clean water and a clean food supply are basic human rights!!! In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Jonathan Bletzer

Subject: PCB Docket 12-126 -- Don't Give Dynegy Permission to Pollute!

Jun 6, 2013

Illinois Pollution Control Board
IL

Dear Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 12-126) to let five coal plants violate Illinois air pollution limits for the next five years.

I believe that every Illinois citizen has the right to breathe clean air and to have a healthy community. Dynegy, in seeking to purchase five coal plants in Illinois, should be expected to play by the rules and comply with our state's air quality standards. For too long, the communities surrounding these plants have been negatively impacted by coal pollution. In 2006, when the Illinois Multi-Pollutant standard went into effect, people living near these plants expected things to improve. Please don't let Dynegy now violate that trust, by giving them permission to pollute our air.

Sincerely,

Joseph Heininger
915 N York St Apt 303
Elmhurst, IL 60126-1253
