## Attachment to Hearing Officer Order

### BOARD QUESTIONS

The Board directs both parties in this case to respond to the following questions:

1. Which permit conditions that were originally challenged have been resolved in settlement negotiations and which ones have not?
2. How are the unresolved permit conditions different from those facilities where the appeal has been resolved, for example, Newton (PCB 06-68)?
3. Has the facility been subject to new operational requirements since this appeal began, for example, state mercury requirements?
4. Do any of those new requirements concern the permit conditions challenged in this appeal? If so, are the new requirements more stringent than the challenged permit conditions?
5. When did the parties to this appeal last meet to discuss settlement?
6. Which party made the last settlement proposal and who is reviewing that proposal? Does the proposal resolve the entire appeal or only one part of the appeal?
