ORDER OF THE BOARD (by J. Anderson):

This variance petition, filed November 16, 1984, is deficient in certain respects.

Page 6 (unnumbered) states that.

"Since the construction schedule is dependent upon the timing of a grant award, the City cannot commit to a firm construction schedule at this time. It is anticipated that by April, 1985, the grant status will be adequately known to allow the City to propose a specific construction schedule. In the event that grant award is still in doubt at that time, the City will submit an alternate plan for compliance."

Is the City presently requesting a variance until April, 1985 or until some other date? Also, the City should state how soon an alternate compliance plan will be prepared should grant status remain in doubt.

If an amended petition curing these deficiencies is not filed within 45 days of the date of this order, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 21st day of November, 1984 by a vote of 5-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
