

## **Board Proposes Second-Notice Amendments to its Right-to-Know Rules**

On August 22, 2019, the Board proposed non-substantive amendments to its right-to-know rules (35 Ill. Adm. Code 1600) for second-notice review by the Joint Committee on Administrative Rules. The Board's existing right-to-know rules generally address soil, soil gas, and groundwater contamination threatening potable water supply wells and the response action required in handling these threats. The rules also provide standards for performing potable water supply well surveys and community relations activities. With its second-notice proposal, the Board streamlines, updates, and clarifies these rules. The proposal includes amendments proposed by the Illinois Environmental Protection Agency.

This rulemaking is captioned Amendments to 35 Ill. Adm. Code Subtitle O: Right to Know, docket R18-30. Here are links to the Board's (1) [second-notice opinion and order](#) and (2) [addendum](#) containing the proposed rule text.
