

ILLINOIS POLLUTION CONTROL BOARD  
August 18, 1983

In the matter of: )  
 )  
PROHIBITION ON LANDFILLING OF ) R81-25  
HALOGENATED SOLVENTS (CBE) )

ORDER OF THE BOARD (by D. Anderson):

On July 5, 1983 Waste Management of Illinois, Inc. filed a motion to reopen hearings for purposes of presenting evidence concerning the trace level rule and concentration exemptions of the proposal. Included with the motion was a set of exhibits. On July 14, 1983 the Board extended the comment period and reserved ruling on the motion to reopen hearings. On August 4, 1983 Waste Management filed what it calls an "offer of proof" listing the names and qualifications of the witnesses it proposes to present at such a hearing.

Waste Management has asked that the hearings be set more than 90 days after the date of this Order. The Board cannot postpone completion of this rulemaking for this length of time. The Board directs that the hearings be commenced within 45 days of the date of this Order, and completed as expeditiously as is practicable.

The Board notes that the Illinois Manufacturers' Association has referenced the General Assembly's passage of H.B. 1054 which would prohibit the landfilling of all liquid hazardous wastes as of July 1, 1984. The scope of this rulemaking is broader than that of this bill, if signed, to the extent that both liquid or solid chlorinated solvents would be banned.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 18<sup>th</sup> day of August, 1983 by a vote of 5:0.
