Subject: Please deny Dynegey's request for a pollution variance (2014-010)

Sep 19, 2013

Hearing Officer John Therriault

Dear Hearing Officer Therriault,

I oppose Dynegey's request for a variance from Illinois air quality standards. Dynegey has the financial wherewithal to purchase the plants and is doing so voluntarily, but still argues that the company would suffer an undue financial hardship if it was forced to comply with the law. The State should hold Dynegey to its legal and corporate environmental responsibility to clean up any of the coal plants it purchases from Ameren.

With climate change creating natural disasters around the globe - Colorado floods, Mexico and Japan just in the last week...and every day people still struggling to make ends meet - please do not reward big businesses that are reaping record profits and continuing to put profits over the health of this planet, its people and nature!

Please do not support this variance.

Sincerely,

Mrs. Sara Foszcz
7301 W Burgett Rd
Richmond, IL 60071-9787

Subject: Please deny Dynegy's request for a pollution variance (2014-010)

Sep 19, 2013

Hearing Officer John Therriault

Dear Hearing Officer Therriault,

I believe Dynegy's plan is to get a variance. Operate during that time making a large profit as it does little to improve pollution control and pushes millions of dollars in increased sickness costs onto Illinois taxpayers. At the end of the variance time I expect them to ask for another variance or shut down.

I oppose Dynegy's request for a variance from Illinois air quality standards. Dynegy has the financial wherewithal to purchase the plants and is doing so voluntarily, but still argues that the company would suffer an undue financial hardship if it was forced to comply with the law. The State should hold Dynegy to its legal and corporate environmental responsibility to clean up any of the coal plants it purchases from Ameren.

I think Foresight Coal's offer to install the equipment and take repayment through coal purchases is preferable to variance. These plants are burning Colorado coal not Illinois coal.

If you do grant a variance, it should require a timetable and if time table is not met then variance should be immediately revoked.

Sincerely,

Dr. Ronald Trimmer

Hearing Officer John Therriault

Dear Hearing Officer Therriault,

The state's air quality standards must mean something, not to be discarded lightly just because someone asks.

I oppose Dynegy's request for a variance from Illinois air quality standards.

Dynegy has the financial wherewithal to purchase the plants and is doing so voluntarily, but still argues that the company would suffer an undue financial hardship if it was forced to comply with the law.

The State should hold Dynegy to its legal and corporate environmental responsibility to clean up any of the coal plants it purchases from Ameren.

Sincerely,

Ms. Nancy Brandt

Subject: Please deny Dynege's request for a pollution variance (2014-010)

Sep 19, 2013

Hearing Officer John Therriault

Dear Hearing Officer Therriault,

If you don't protect our kids & properties you are putting the nails in their little coffins. Our kids lives are not collateral damage & you will be held accountable sooner or later; judgement will be on you for what you did or didn't do. The jobs aren't worth it when employees will suffer illness & consequences; then fighting for a fraction of benefits promised if these companies don't file bankruptcy to get out of their responsibilities. Let the past predicts future behavior change into our destiny to make it better, all for 1 & 1 for all.

I oppose Dynege's request for a variance from Illinois air quality standards. Dynege has the financial wherewithal to purchase the plants and is doing so voluntarily, but still argues that the company would suffer an undue financial hardship if it was forced to comply with the law. The State should hold Dynege to its legal and corporate environmental responsibility to clean up any of the coal plants it purchases from Ameren.

Sincerely,

Mrs. Tammy Thompson
