

Illinois Pollution Control Board

Re: Public Comment for R08-9 (Subdocket D)

PC#1458

Mr. Therriault:

We want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

It is important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

We want the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Lisa May Simpson
Chicago, Illinois

Mr. John Therriault
Illinois Pollution Control Board
Re: Public Comment for R08-9 (Subdocket D)

PC#1459

Mr. Therriault:

We want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

Ashley Meagher
Oak Park, IL

Mr. John Therriault
Illinois Pollution Control Board
Re: Public Comment for R08-9 (Subdocket D)

PC#1460

Mr. Therriault:

We have made great progress on the water quality of the Chicago river over the past 4 decades, let's continue to improve the quality of the river for people and wildlife.

We want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

It is important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

We want the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Edward M. O'Brien
River Forest, Illinois

Mr. John Therriault
Illinois Pollution Control Board

PC#1461

We want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

It is important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

It would be a disservice to the people of Chicago, as well as tourists and visitors of this great city, to expose them to anything less than what our city is known for and proud of - cleaner air and water. Let's get our water standards up to par with the high standards Chicago is known for in most other areas.

We want the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Joe Cavataio
Chicago, IL

Re: Public Comment for R08-9 (Subdocket D)

Mr. Therriault:

PC# 147

I want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

I have worked closely with Friends of the Chicago River to help ensure that my high school kids have a solid understanding of what a great natural resource the Chicago River is, as well as its place in our region's history. Our culture will be severely impacted if we do not protect it. I find it extremely important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

I would like to see the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Michael Littmann

Mr. Therriault:

Patt 1496

We want rules that protect aquatic life on the Chicago River system just as stringent as for the rest of the state.

It is important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

We want the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Phyllis Petrilli
Chicago, IL

Mr. John Therriault
Illinois Pollution Control Board
