Illinois Pollution Control Board
Re: Public Comment for R08-9 (Subdocket D)

PC# 1432

Dear Mr. Therriault:

We want rules that protect aquatic life on the Chicago River system which are just as stringent as those for the rest of the state.

It is important for the future health of the Chicago River system and the wildlife that calls it home that this Final Rule goes into effect as written. The Final Rule is based on the Board's careful consideration of the record that has been built since 2008. Polluters were given ample opportunity during this process to demonstrate any hardship that would prevent them from meeting the Final Rule and now they should be working towards meeting the new standards.

We want the Final Rule to be implemented as soon as possible to protect the wildlife of the Chicago River system.

Sincerely,
Dr. Andrius Tamulis
