RECOMMENDATION OF THE ILLINOIS
ENVIRONMENTAL PROTECTION AGENCY

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board ("Board"), 35 Ill. Adm. Code 125.204.

1. On November 14, 2016, and supplemented on October 16, 2020, the Illinois EPA received a request from Fredrickson Hogs, Inc.-Little York (log number TC-137100, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.
2. The facility's address is: Fredrickson Hogs, Inc.-Little York
Chris Fredrickson
1963 TWP Rd. 2500N
Little York, Illinois 61543

The proposed water pollution control facilities in this request are located in the SE ¼ of Section 26, T12N, R4W of the 4th P.M. in Henderson County, at the above street address and consist of the following:

Livestock waste management facilities consisting of one concrete manure pit (approximately 71 ft. x 281 ft. x 8 ft. deep), the concrete slatted portion of the floor over the manure pit that captures and contains waste generated in the barn above, and eight concrete pump out pits (each approximately 6 ft. x 6 ft. x 9 ft.) to allow manure removal from the manure pit.

These livestock waste management facilities are used to collect, transport, and/or store livestock waste prior to cropland application, and are further described in Exhibit A.

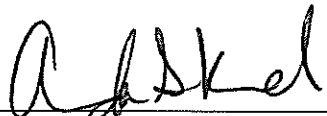

3. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2018), and Section 125.200(a) of the Board's regulations, 35 Ill. Adm. Code 125.200(a), define "pollution control facilities" as:

any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: eliminating, preventing, or reducing air or water pollution ...or treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.

4. In order to receive preferential tax treatment as pursuant to 35 ILCS 200/11-5 (2018), pollution control facilities must be certified as such by the Board, 35 ILCS 200/11-20 (2018) and 35 Ill. Adm. Code 125.200(a).
5. Upon receipt of a tax certification application, the Illinois EPA must file a recommendation on the application with the Board, 35 Ill Adm. Code 125.204(a).
6. Based on the information in the application and the purpose of the facility, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the requested tax certification.

Re: Fredrickson Hogs, Inc. – Little York
Recommendation of Tax Certification
Log # TC-137100
Property Index# 05-026-007-02

The Bureau of Water received a request on November 14, 2016 from Chris Fredrickson for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

Fredrickson Hogs, Inc.
1963 TWP Rd. 2500N
Little York, IL 61453

SE ¼ of Section 26, T12N, R4W of the 4th PM in Henderson County

The livestock waste handling facilities consisting of one (1) concrete manure pit (approximately 71 ft. x 281 ft. x 8 ft.), the concrete slotted portion of the floor over the manure pit that capture and contain waste generated in the barn above, eight (8) pumpouts pits (approximately 6 ft. x 6 ft. x 9 ft. each) attached to the manure pit for manure removal. The facility collects, transports and stores livestock waste prior to cropland application.

The facility is further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact Wei Han at 217/782-0610.

Signature: Chris Fredrickson

Title: Owner

Date Control Devices installed: 10/2016

Wastes: Livestock waste is applied to cropland.
 Agrichemical rinsate and spillage is recycled through the facility and/or land applied.
 Other: _____

Physical Description of Pollution Control Devices:

The livestock waste handling facilities consist of one (1) concrete manure pit (approximately 71 ft. x 281 ft. x 8 ft.) and the concrete slatted portion of the floor over the manure pit that capture and contain waste generated in the barn above. Eight (8) pumpouts pits (approximately 6 ft. x 6 ft. x 9 ft. each) for the manure pit for manure removal from the pit. The facility collects, transports and stores livestock waste prior to cropland application.

11/13/2017: Called Mr. Fredrickson for additional information and statement about pollution control facilities to be certified (pit only).

9/10/2020: 2nd NOI letter sent to the applicant requesting same information. Response received 10/21/2020.

10/21/2020: Received response via email. Additional information provided.

Pollution control facilities requested by the applicant through Description of Pollution Control Facilities, Section C of the application form and the attached drawings.

One (1) concrete manure pit; (approximately 71 ft. x 281 ft. x 8 ft.)

Concrete slatted floor at the pit;

Pumpout pits attached to the manure pit, 10 x 6 ft. x 6 ft. x 9 ft.

Recommended Action: Issue tax certification.

Re: Illinois Property Tax: Fredrickson Hogs, Inc. – Little Rock
Livestock Waste Pollution Control Facilities
Log No. TC-137100

Dear Mr. Fredrickson:

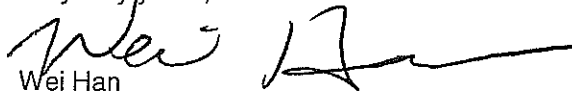

The application for Illinois Property Tax Certification received November 14, 2016 for the above listed facilities has been reviewed and the following information is missing from the application:

1. Street address of the facility.
2. Property ID number or parcel number as shown in the tax bill. If the new facility does not have a property ID or parcel number, please provide such number for the property where the facility is located.
3. The number and dimensions of pumpouts pits if the manure pit has pumpouts pits for manure removal.
4. Length, diameter and material of any drainage tiles if installed around the manure pit.
5. Means by which manure is collected from the barn above the manure pit, i.e., slotted concrete floor.
6. A statement that the barn above the manure pit is not requested for tax certification. Please be advised that only the manure pit and the associated structures, i.e., pumpout pits, perimeter drainage tile, slotted concrete floor above the pit, etc., are considered pollution control facilities for property tax purpose.

Please provide the information listed above so the Agency can complete the review of the subject application. Please include the above log number on all correspondence.

If you have any questions or comments concerning the above items, please contact me at 217-782-0610.

Very truly yours,

Wei Han

Sec. G	INSTRUCTIONS FOR COMPILING AND FILING APPLICATION		
General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.			
Sec. A	Information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.		
Sec. B	Self-explanatory. Submit copies of all permits issued by local pollution control agencies. (e.g. MSD Construction Permit)		
Sec. C	Refers to manufacturing processes or materials on which pollution control facility is used.		
Sec. D	Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the pollution control facility. Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an average analysis of the influent and effluent of the control facility stating the collection efficiency.		
Sec. E	List air contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) - Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) - Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) - If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) - State the date which the pollution control facility was first placed in service and operated. If not, explain. Item (5) - This information is essential to the certification and assessment actions. This accounting data must be completed to activate project review prior to certification by this Agency.		
Sec. F	Self-explanatory. Signature must be a corporate authorized signature.

Re: Illinois Property Tax: Fredrickson Hogs, Inc. – Little Rock
Livestock Waste Pollution Control Facilities
Log No. TC-137100

Dear Mr. Fredrickson:

The application for Illinois Property Tax Certification received November 14, 2016 for the above listed facilities has been reviewed. The Agency sent you a letter requesting additional information on February 16, 2017. This is the second notice requesting the following information that is needed for the Agency to complete the review of the application:

1. Street address of the facility.
2. Property ID number or parcel number as shown in the tax bill. If the new facility does not have a property ID or parcel number, please provide such number for the property where the facility is located.
3. The number and dimensions of pumpouts pits if the manure pit has pumpouts pits for manure removal.
4. Length, diameter and material of any drainage tiles if installed around the manure pit.
5. Means by which manure is collected from the barn above the manure pit, i.e., slotted concrete floor.
6. A statement that the barn above the manure pit is not requested for tax certification. Please be advised that only the manure pit and the associated structures, i.e., pumpout pits, perimeter drainage tile, slotted concrete floor above the pit, etc., are considered pollution control facilities for property tax purpose.

Please provide the information listed above within 45 days. Please include the above log number on all correspondence. If the above information is not submitted within 45 days, the Illinois EPA will have no option other than to recommend that the Illinois Pollution Control Board deny the application.

If you have any questions or comments concerning the above items, please contact me at 217-782-0610.

Very truly yours,
