RULEMAKING UPDATE

PROPOSED CALIFORNIA MOTOR VEHICLE CONTROL PROGRAM DISMISSED, R89-17(C)

On January 7, 1993, the Board dismissed the proposed California motor vehicle control program docket. The Board had opened this docket on October 18, 1989 to consider adoption of the California standards applicable to motor vehicle emissions. The federal Clean Air Act only allows states to adopt the federal new vehicle standards or the more stringent standards of the State of California. The proposed rule would have required that all new motor vehicles adhere to those standards.

The Board held public hearings on various versions of the basic proposal to adopt the California standards on December 12, 1989, July 23, 1991, and July 22, 1992 and received 60 public comments. The Board proposed its initial version of a rule in this matter on April 12, 1990, and dismissed that initial version (dockets A and B) on February 7, 1991. The Board proposed a subsequent version (docket C) on October 11, 1990. That later version focused on the relatively new California Low Emission Vehicle (LEV) program.

In dismissing this rulemaking, the Board followed the general tenor of the public comments and public testimony at the hearings. The Board noted that numerous comments in the record cited significant economic and environmental uncertainties involved in Board adoption of the California standards for Illinois, rendering the benefits of doing so uncertain. The Board concurred in the Agency comment that dismissal of this proceeding at this time did not foreclose a future adoption of the California standards, if necessary, after the state has determined the emissions reductions to be gained through implementing the federal requirements of the Clean Air Act Amendments of 1990.

FERTILIZER AND PESTICIDE FACILITIES EXEMPTED FROM GROUNDWATER PROTECTION REGULATIONS, R92-20

On January 21, 1993, the Board adopted amendments that will exempt agricultural fertilizer and pesticide facilities from the groundwater protection regulations of 35 Ill. Adm. Code 615 and

616. The facilities exempted include those located within maximum setback zones that store or engage in related handling of these materials for commercial application or for distribution to retail sales outlets. The amendments are in response to P.A. 87-1108, signed by the Governor on September 15, 1992. For the exemption to apply to a facility, the facility owner or operator must have filed a notice of intent to be subjected to Section 14.6 of the Act, as added by that bill, by January 1, 1993, or the facility must file this notice within six months of when a maximum setback zone is established. Address questions to Michelle Dresdow, at 815-753-0947. (Please refer to docket R92-20.)

RCRA UPDATE ADOPTED, R92-10

On January 21, 1993, the Board adopted amendments to the RCRA rules. These amendments correspond with USEPA amendments for the period from January 1, 1992 through June 30, 1992. Among the amendments included in this period are the leak detection rules for land disposal units (landfills, surface impoundments, and waste piles), provisions for adjusted standards for alternative design and operating practices for permitted land disposal units, and an extension of the stay for the drip pad requirements for wood preservers (wood preserving rules) until the Board takes final action in docket R93-4 (the next RCRA update docket, for the period from July 1 through December 31, 1992). The Board expressly did not adopt a sunset provision for the mixture and derived-from rules in this docket. Address questions to Morton Dorothy, at 217-333-5575. (Please refer to docket R92-10.)

ENVIRONMENTAL INFORMATION SERVICES
AVAILABLE FROM THE BOARD

The Board has the following information available:

POLLUTION CONTROL BOARD ELECTRONIC BULLETIN BOARD SYSTEM (BBS). The Pollution Control Board operates an electronic BBS at 312-814-1590. The BBS is available 24 hours a day, 7 days a week, to anyone with access to a computer and a modem - there is no charge for access to the BBS. The best communications settings are 8 data bits (or data length 8), no parity (or parity = none) and 1 stop bit, i.e., 8-N-1. The best terminal emulation is ANSI-BBS or just ANSI. The BBS contains Board Agendas, Environmental Registers, Annual Reports, and various documents about the Board. You may download these documents to your computer. For additional information contact Bill Forcade at the Board Offices 312-814-3620.

SUBSCRIPTION SERVICE OF BOARD OPINIONS AND ORDERS. The subscription service comprises all the Opinions and Orders issued by the Pollution Control Board in a fiscal year (July 1 through June 30). The Board meets approximately twice monthly in order to issue Opinions and Orders.. Usually no later than the end of each month, a volume is issued containing the Opinions and Orders of the Board from the preceding month.

HARD COPIES OF BOARD OPINIONS AND ORDERS FOR FISCAL YEAR 1992 (July 1, 1991 through June 30, 1992) **ARE AVAILABLE FOR IMMEDIATE DELIVERY.** The cost is \$350.00 per set.

Two formats will be offered starting July 1 of this year (FY93): a hard paper copy for \$350.00 per year and an electronic version for \$275.00 per year. The electronic version will consist of Opinions and Orders in the WordPerfect 5.1 format on either 3.5" or 5.25" inch diskettes. The electronic format will allow for word searches and other useful tools provided by the WordPerfect software.

When ordering, please specify the choice of either the hard copy or electronic version. If ordering the electronic version, please specify 3.5" or 5.25" diskettes.

VOM EXEMPTION DOCKET DISMISSED, R93-3

On January 21, 1993, the Board dismissed the most recent reserved docket for updates to the exemptions from the definition of volatile organic material. The update period spanned from July 1 through December 31, 1992. During that period, USEPA did not amend its corresponding definition. Address questions to Michael J. McCambridge, at 312-814-6924. (Please refer to docket R93-3.)

APPELLATE UPDATE

THIRD DISTRICT DETERMINES THAT INDIVIDUAL WASTE GENERATORS MUST OBTAIN §39(h) AUTHORIZATIONS FOR DISPOSAL; ENFORCEMENT ACTION AGAINST THE AGENCY IS NOT AUTHORIZED BY THE ACT

An Illinois Appellate Court recently reversed the Board's dismissal of a citizen's land enforcement

complaint in Envirite Corp. v. Pollution Control Board (3d Dist. Jan. 8, 1993), No. 3-92-0202. The appellate court's decision interpreted Section 39(h) of the Environmental Protection Act to determine that the Board erred when it granted summary judgment and dismissed the complaint.

In Envirite Corp. v. Peoria Disposal Corp. (Dec. 19, 1991), PCB 91-152, the complaint alleged that the respondent, Peoria Disposal Co. (PDC), violated the Environmental Protection Act because it disposed of hazardous wastes in its landfill without the generator of the wastes having first obtained authorization from the Agency for landfill disposal. Section 39(h) of the Act requires that the generator of hazardous waste and disposal site owner must obtain authorization from the Agency for the deposit of that specific hazardous waste stream. The complaint also named the Agency as a respondent, alleging that the Agency was guilty of administrative nonfeasance because it had failed to abate the PDC practice of accepting the waste without the authorizations for the individual generator's waste stream.

In granting summary judgment, the Board had held that

PDC was the generator of the wastes for the purposes of the Act because PDC mixed and treated the wastes from various generators prior to disposal, so PDC was the generator for the purposes of Section 39(h), not the generator from whom PDC received the unblended, untreated wastes. PDC had the necessary Agency authorization for this blended and treated wastestream. The Board further dismissed as to the Agency because it held that the Act nowhere authorizes the Board to direct the Agency's conduct.

In reversing the Board, the court looked to the legislative intent and held, as to the dismissal of the complaint against PDC, that the original industrial producer of a hazardous waste is a "generator" for the purposes of Section 39(h), even where the disposal site owner and operator treated the waste prior to disposal. Hence, according to the court, the original producer of the waste is required to obtain Section 39(h) authorization for disposal from the IEPA. As to the complaint against the Agency, the court upheld the Board's ruling that the IEPA is not subject to an enforcement action before the Board. The court held that "the Act does not authorize an action against the Agency before the Board to challenge the Agency's performance of its statutory duties in issuing [Section 39(h)] authorization[s]." The court further upheld the Board's exercise of its discretion in the denial of the filing of a reply brief as "neither arbitrary nor capricious". The court remanded the matter for reinstatement of the complaint against PDC and further proceedings before the Board.

FOR YOUR INFORMATION

PUBLIC HEARING ON AMENDMENTS TO LANDFILL REGULATIONS, R92-19

The Board has scheduled public hearings on its own rulemaking proposal to amend the landfill regulations in response to a judicial decision that held certain provisions invalid. The hearings are scheduled for February 26, in Chicago, and March 16, in Springfield. The will require the submission of pre-filed testimony and exhibits.

In Waste Management of Illinois, Inc. v. IPCB (1st Dist. 1992), 231 Ill.App.3d 278, 595 N.E.2d 1171 (see *Environmental Register* No. 458, October 15, 1992), the court held that the Board failed to follow the procedures set out in section 27(b) of the Environmental Protection Act when enacting 35 Ill. Adm. Code 811.310(d)(1)(F). Therefore, the court found section 811.310(d)(1)(F) invalid. The court also invalidated section 35 Ill. Adm. Code 813.106(b), finding that the Board exceeded its statutory authority in promulgating a regulation which would have delayed the finality of an Agency decision pending reconsideration. The proposed rulemaking would amend the Board's landfill regulations by deleting those provisions found invalid in Waste Management. The Board is also accepting comment as to whether a third provision, 35 Ill. Adm. Code 811.310(c)(5), should be deleted because it references 35 Ill. Adm. Code 811.310(d)(1)(F).

The hearings will occur as follows:

Friday, February 26, 1993
10:00 a.m.
Suite 11-500
State of Illinois Building
100 W. Randolph St.
Chicago, Illinois.

Tuesday, March 16, 1993
10:00 a.m.
3rd Floor, Room 305(a)
Municipal Building
7th and Monroe
Springfield, Illinois

Contact the hearing officer, Anne Manly, at 312-814-3473, for information about testifying at hearing and pre-filing testimony and exhibits. (Please refer to docket R92-19.)

**Illinois Environmental Protection Agency
Division of Public Water Supplies
Restricted Status List -- Public Water Supplies**

The Restricted Status List was developed to give additional notification to officials of public water supplies which are in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

The Restricted Status List will include all Public Water Supplies for which the Agency has information indicating a violation of any of the following requirements: Finished water quality requirements of 35 Ill. Adm. Code, Part 604, Subparts B and C; maintenance of adequate pressure on all parts of the distribution system under all conditions of demand; meeting raw water quantity requirements of 35 Ill. Adm. Code 604.502; or maintenance of treatment facilities capable of providing water "assuredly adequate in quantity" as required by Section 18 of the Illinois Environmental Protection Act.

A public water supply on the Restricted Status List will not be issued permits for water main extensions, except for certain limited situations, or unless the supply has been granted a variance from the Illinois Pollution Control Board for the violation, or from permit issuance requirements of Section 39 of the Act.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of January 1, 1993.

* Indicates public water supplies which have been added to the list since the previous publication.

** Indicates actions are being taken by officials to bring the public water supply into compliance.

 Critical Review List -- Public Water Supplies

January, 1993

The Critical Review List was developed to give additional notification to officials of public water supplies which may be close to being in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

A supply will be placed on the Critical Review List when Agency records indicate that it is approaching any of the violations which would place it on the Restricted Status List.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination.

This list reflects the status as of January 1, 1993.

Indicates public water supplies which have been added to the list since the previous publication.

Indicates actions are being taken by officials to bring the public water supply into compliance.
