Subject: R2012-023

Dear Illinois Pollution Control Board,

I am writing in support of the Illinois Pollution Control Board's proposed rule on factory farms.

Pollution from factory farms, like animal waste and chemicals, threatens the rivers and streams we love and depend on. That's why I fully support the IPCB's proposal to:

- Ban manure spreading practices that threaten our rivers, streams, or drinking water
- Ensure the public's right to know about every factory farm operation across the state, so we know where the pollution is coming from.

Much tougher action will be needed to truly curb factory farm pollution. But these are good first steps, and I hope that you will fully support them.

Thank you for standing up for Illinois's rivers and streams.

Sincerely,  
Karen Ard

Dear Governor Quinn--We need farms, but we must offer more policies to regulate FACTORY farms and protect our water supplies. It is important to stand up for Illinois's rivers and streams and keep our water free of manure and chemicals. Thank you!

Sincerely,  
Cheryl Peterson

I want to be able to fish and go kayaking in our rivers. I want to be able to wade into a stream without fear that I am wading into feces and antibiotic runoff. I want to know that our water sources are safe and not full of antibiotic-resistant bacteria. Please support the IPCB proposed rule on factory farms.

Sincerely,  
Barbara McKasson

Dear Illinois Pollution Control Board,

I am writing in support of the Illinois Pollution Control Board's proposed rule on factory farms.

Pollution from factory farms, like animal waste and chemicals, threatens the rivers and streams we love and depend on. That's why I fully support the IPCB's proposal to:

- Ban manure spreading practices that threaten our rivers, streams, or drinking water
- Ensure the public's right to know about every factory farm operation across the state, so we know where the pollution is coming from.

Much tougher action will be needed to truly curb factory farm pollution. But these are good first steps, and I hope that you will fully support them.

Thank you for standing up for Illinois's rivers and streams.

Sincerely,  
Clare Kirkpatrick
