

Re: Case No. R15-21 (Rulemaking - Air)

PC#7

Dear Members of the Illinois Pollution Control Board and IL EPA:

As a resident in the Peoria and Tazewell county area, I live in a community where it is unsafe to breathe. I respectfully request you reject the proposed Non-Attainment Plan for the 1-Hour Sulfur Dioxide National Ambient Air Quality Standards. The current draft rule falls short of protecting my community from sulfur dioxide (SO₂), a respiratory irritant associated with the onset of asthma attacks and other health conditions, and must be strengthened in the following ways before it can be approved:

Require a stronger emissions limit at the Dynege ED Edwards coal plant along with an expedited date for the installation of sulfur dioxide pollution controls.

We need specifics

Require NRG Energy's Powerton coal plant to comply with an *hourly* limit on its sulfur dioxide emissions to adequately protect the Peoria and Pekin communities.

Name (Please Print): Sandra L Sanders Date: 7-30-15

Address: 4521 Nagel

Phone: 309-369-4773 Email: ibthechange@gmail.com

Thank You for Defending Clean Air!

I would like to:

Attend a hearing before the Illinois Pollution Control Board in Pekin on August 4th, 10:30 AM

Signing this postcard makes you a participant in Sierra Club's local Beyond Coal Campaign. As a participant, you'll stay informed and involved with the latest news on this campaign from the Sierra Club.

Clean air is important to me because: I have to breathe it!

I live within a city block of the plant
and lived in Pekin for 20 years

The air in Pekin & Bartonville are very
high levels of SO_2 . My son had
to grow up with ~~SO~~ Asthma. He couldn't
do sports & ^{we had a} lots of trips to emergency
room. Please put in place a plan to
keep ~~the~~ kids from growing up with
Asthma, They deserve better,
& to breath healthy air

Clean air is important to me because: My son who is 6 yrs old has asthma.

He has been on multiple nebulizers, steroids, medications etc. since

he was 1. For someone so young to struggle with respiratory issues,

I demand that he at least deserve to inhale clean air.

Especially ~~in~~ a factory so close can provide cleaner solutions.

Clean air is important to me because: there is a direct correlation
between the health of the air, soil, and water
and the citizenry. How much is health
for our children and citizens worth?
Worth the effort to install scrubbers? Worth
the effort to convert to clean energy &
clean jobs? What is the same thing
to do here, The Right Thing?

I respectfully request you reject the proposed Non-Attainment Plan for the 1-Hour Sulfur Dioxide National Ambient Air Quality Standards. The current draft rule falls short of protecting my community from sulfur dioxide (SO₂), a respiratory irritant associated with the onset of asthma attacks and other health conditions, and must be strengthened in the following ways before it can be approved:

Require a stronger emissions limit at the Dynegey ED Edwards coal plant along with an expedited date for the installation of sulfur dioxide pollution controls.

Require NRG Energy's Powerton coal plant to comply with an *hourly* limit on its sulfur dioxide emissions to adequately protect the Peoria and Pekin communities.

Name (Please Print): Toni J. Rose Date: 7-15-15

Address: 1903 Karo St.

Phone: 620-0971 Email: _____

Thank You for Defending Clean Air!

I would like to:

Attend a hearing before the Illinois Pollution Control Board in Pekin on August 4th, 10:30 AM

Signing this postcard makes you a participant in Sierra Club's local Beyond Coal Campaign. As a participant, you'll stay informed and involved with the latest news on this campaign from the Sierra Club.

Clean air is important to me because: I Breath - Family home -
generations to come -
