Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years. Also, I have a sister that lives in Romeoville, that has the worst drinking water. Not to mention the refinery not that far from her house that pollutes the air every single day and nobody does anything about that problem either. No matter how many petitions that has gone out, that still pollute the air and nothing is ever done. My sister has stage 4 cancer. What does it take for someone to listen??

Sincerely,
Debbie Nuccio

Aug 28, 2013

Illinois Pollution Control Board, cc: Dynegy CEO Robert Flexon

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

These plants have been poisoning our environment for too many years already. We have to put a stop to the damage they are doing to the health of people in Illinois and beyond, the increase in damage from climate change that they are contributing to and the pollution of our water supply, the death of thousands of fish that they cause.

The damage these plants far outweighs the value of the electricity they generate. The cost of renewable energy which has none of the problems of these coal fired plants is not at parity with the cost of electricity from coal. Please kill off these dinosaurs and promote clean renewable energy. It will create many good jobs and strengthen the State.

Sincerely,
Richard Stuckey
