Dear Illinois Pollution Control Board,

When the interests of corporations, i.e., making profit for shareholders, and the interests of public access to clean air and water collide, the interests of the public should, **MUST** prevail.

It's time for Dynegy to commit to a plan that cleans up dirty coal plants -- not one that serves the narrow interests of shareholders. The people of Illinois want cleaner air and our state shouldn't give Dynegy a free pass to pollute.

Sincerely,
Nancy Churchill
