Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Edwards plant near Peoria coal particulates result in 7 deaths and about \$50 million in health cost annually.

It is also releasing CO2 into atmosphere causing climate change that is destroying Illinois farming. With no change in CO2 emissions, Illinois corn crop by 2040 will be only half of what it is today.

It is time to clean up Edwards and all the old coal electricity plants. We cannot afford the health care costs and climate disruption they are causing.

Sincerely,
Ron Trimmer
