Subject: No Free Pass for Dynegey to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years. I suspect that one of them is also right there in Springfield. The City Water Light and Power Plant used to be VERY bad. I haven't been in Springfield i some time but I'll bet it has not changed.

I do not want workers to lose jobs but the use of coal spewing black smoke is truly no longer acceptable. A program to rebuild or use other fuel MUST BEGIN! It's way past time! Thank you.

Sincerely,
Galey Decker

If ownership of five coal-fired power plants in Illinois changes ownership in the future (near or far), this is the perfect time to shut off completely their free pass to pollute that Ameren has received. If these plants are not sold and Ameren does not clean up its act, and soon, then Ameren should be shut down and no longer allowed the privilege of polluting water and air.

Sincerely,
Homer Gurtler

Sep 4, 2013

Illinois Pollution Control Board, cc: Dynegy CEO Robert Flexon

Subject: No Free Pass for Dynegy to Pollute! Case Number: PCB 2014-010

Dear Illinois Pollution Control Board,

I am heavily concerned with the PCB 2014-010 request, and the numerous silent costs it will inflict upon our state. By permitting the coal plants in question to essentially ignore air pollution limits, the state would undoubtedly see a significant rise in the number of respiratory ailments/illnesses in the Illinois population, and as a result, in healthcare costs. When we consider the additional negative impacts to the environment: acid rain damaging crops, waterways, and buildings, increased stress on both wild and domestic animals health... the consequences of granting this request simply outweighs the benefits. While I respect the business's desire for what amounts to a grace period during this acquisition, protecting all aspects of our state's well being should be our number one priority at all times.

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Sincerely,
Erin Wood

Dear Illinois Pollution Control Board,

Don't give Illinois coal plants a free pass to pollute. I urge you to reject the request (PCB 2014-010) to let five coal plants violate Illinois air pollution limits for the next five years.

Dynegy should not be buying these outdated coal-fired power plants from Ameren if they are not willing to upgrade the pollution controls. Our clean air laws should be enforced without exception and not subject to negotiation by business interests. These five coal plants have had ample time to upgrade to EPA standards. The petition for five more years of dirty emissions is just another foot-dragging exercise to postpone the day of reckoning.

Do the right thing for our air quality and the citizens whose health is directly affected by these power plants. Reject Dynegy's request for a free pass to continue polluting.

Sincerely,
Gary Zvitt
