Respondent.)

ORDER OF THE BOARD (by J. Anderson):

On February 15, 1984, Midwest Solvents filed an unnumbered document entitled "Petition for Variance." Upon filing, this document was docketed by the Board as PCB 84-19. However, upon subsequent review, the Board notes that this filing appears to be an amended petition responding to the Board's January 26, 1984 more information Order in the case docketed as PCB 84-9, Midwest Solvents v. IEPA, filed January 23, 1984. To avoid perpetuation of administrative confusion, the Board hereby dismisses docket PCB 84-9.

The Board notes that hearing is requested on the PCB 84-19 petition, and will assign a Hearing Officer to schedule and hold a public hearing. However, the petition again refers to information not in the Board's possession. Rather than requiring submission of yet another amended petition, the Board directs that, at hearing, Midwest shall present

- a) the Bibb and Associates study referred to at p. 8, ¶17, and
- b) ambient CO readings from the monitoring station closest to the Midwest facility.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Opinion and Order was adopted on the 22nd day of February, 1984 by a vote of 7-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
