Subject: [External] Hog facility plans

Dear Mr. Johnson,

I'm very concerned about the plans to construct an enormous hog facility in the Spoon River area. This will have a terrible effect on the well-being of that particular community, as well as harming the state of Illinois as a whole.

I wanted to weigh in as an Illinois citizen. If you are not the right person to contact, please forward this to the appropriate official.

Thank you for your attention.

Sincerely,

Lauralyn Persson
