Respondent. )

ORDER OF THE BOARD (by J.A. Burke):

On November 3, 2005, Dynegy Midwest Generation, LLC (Dynegy), filed a petition asking the Board to review a September 29, 2005 determination of the Illinois Environmental Protection Agency (Agency) to issue a Clean Air Act Permit Program permit with conditions. The permit concerns Dynegy's coal-fired electric generating station located at 2150 North County Road in Oakwood, Vermilion County.

On January 12, 2016, Dynegy filed a motion for voluntary dismissal of this permit appeal. Dynegy further requests that the Board order each party to bear its own costs, and that counsel for the Agency has no objection to the motion. The Board grants the motion, dismisses this case, and closes the docket. The parties therefore do not have to respond to Board questions issued on January 6, 2016.

IT IS SO ORDERED.

I, John Therriault, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on January 21, 2016, by a vote of 5-0.
